Teach-Out Plan 2021

October 1, 2021

Berkeley City College

Teach-Out Plan

Submitted by:

Berkeley City College

2050 Center Street

Berkeley, CA 94704

Submitted to:

Accrediting Commission for Community and Junior Colleges,

Western Association of Schools and Colleges

Date Submitted

October 1, 2021

Table of Contents

A. Circumstances Requiring a Teach-out Plan

Berkeley City College (BCC) submitted its Institutional Self-Evaluation Report (ISER) to the Accrediting Commission for Community and Junior Colleges (ACCJC) in December 2020 and completed its comprehensive accreditation review process by welcoming the Accreditation

Visiting Team virtually during the week of March 1-4, 2021. Upon reviewing the Berkeley City College ISER, the Peer Review Team Report, and hearing the testimonies of the Berkeley City College President and the Peralta Community College District Interim Chancellor Dr. Jannett Jackson at the June 2021 Commission meeting, the ACCJC decided to extend the College's probation status.

Per the new Commission policy on teach-out plans (34 CFR §602.24 (c)(5), 34 CFR § 600.2, 34 CFR §602.24 (c), 34 CFR §602.23(f) (1) (ii)) adopted in June 2021, a college is required to develop a teach-out plan when the Commission places the institution on probation. Berkeley City College's Teach-out Plan ensures an equitable treatment of students in the event of a closure of the College.

B. Student Enrollment in all College Programs

Appendix 1 lists Berkeley City College's current associate degrees, associate degrees for transfer, and certificates, as published in the 2020-2021 Catalog, and includes the student enrollment for the past three years.

C. Colleges with Similar Degrees to Berkeley City College

Appendix 2 lists colleges with similar degrees and certificates where students could reasonably complete their programs of study should the institution need to close. Berkeley City College has identified the Vice President of Instruction to be the point of contact at each of the receiving institutions in order to maintain consistency of contact.

D. Verification of Comparable Programs

Comparable program content, structure, scheduling, accreditation, and stability at the receiving institution were reviewed for all Berkeley City College degrees and certificates to ensure students could successfully complete their educational goals. Verification of comparable programs included reviewing college program websites (including review of course offerings), learning outcomes, and degrees and certificates offered. The Peralta Community College District Chancellor communicated with the respective chief executive officers of the receiving institutions regarding the purpose of the new requirement for teach-out plans and they were each apprised that their program(s) have been identified as potential matches for Berkeley City College students.

E. Student Records Access and Notification to Students

Berkeley City College, in collaboration with the Peralta Community College District, will make necessary student records available and will use multiple communication methods to ensure that students will have uninterrupted access to necessary records.

The Peralta Community College District Closure Resource (PCCD-CR) website will be created for Berkeley City College and each of the other three colleges in the District. The College and District will make this communication system accessible to students beginning during the last academic year of college operations through the first two years after closure. The website will include a Student Records request link where students can order any of their college records through one portal. The portal will provide clear prompts to guide students through the record request process.

The College and the District will implement multiple communication methods to disseminate information and instructions pertaining to record requests and other relevant closure information. Students will be notified of how to obtain records by various means of communication, including e-mail, text messages, and social media platforms. Post closure, a dedicated district webpage will serve as an ongoing resource for previous students by directing them to a third-party record repository, Parchment, for all future record requests.

F. Personnel and Resources to Support Student Program Completion

During the final year of operation, no new students will be admitted to Berkeley City College or to any other college in the District. The College and District will hire additional staff specifically dedicated to supporting students with successful transition from Berkeley City College to other institutions. The College and the District will also provide appropriate training for staff to support this process. Since the resources available to students will be online, the Berkeley City College Welcome Center will have staff available to assist students with navigating the website and the records request portal. Regular hours of operation will include limited evening and Saturday service. In addition, Berkeley City College will work with the partner institutions to ensure clear and easy transitional plans for the students to achieve their educational goals. Such processes will be communicated with students through various methodologies identified in Section E above.
