

BERKELEY CITY COLLEGE

1976  
TRANSFORMING LIVES

The Associated Students of  
Berkeley City College (ASBCC)  
is requesting for faculty participation in our  
2018-19 Food Insecurity Project  
which aims to

- 1) to raise awareness about food insecurity that affects our community, especially our students and
- 2) build an in-campus food pantry beyond the Food Bank Mondays that is accessible to students whenever needed.

We are hoping to have classes from different disciplines to have one project that tackles the issue of food insecurity. The student projects will be presented on a culminating activity toward the end of Spring 2019 semester. Sample projects:

- Chemistry can do a project on the chemical composition of different food and come up with a list of foods that should and should not be on our food pantry.
- Statistics can conduct statistical analysis of different communities experiencing food insecurity and possibly come up with a list of organizations that could help those communities.
- Child Development can do a project on child obesity.
- M/LAT can do a project on food embargoes.
- Multimedia Arts can do a film on food insecurity.

*If you wish to participate, please email [president.asbcc@gmail.com](mailto:president.asbcc@gmail.com) so that we can keep track of all the projects.*
