

TEST PROCTORING FOR SAS STUDENTS

Student Accessibility Services can help implement testing accommodations with ease!

Students can take their tests in the Testing Center where we provide a quiet, distraction-reduced environment.

We provide them with extra time on tests and alternative formats.

Academic integrity is maintained by the test proctor and full camera monitoring.

Available Monday-Friday in P 305

Students should make their testing appointment 5 days before their exam day. To make an appointment contact SAS front desk at the email below.
