Background: About the ACCJC Annual Report

In accordance with federal regulations and the Commission [Policy on Monitoring Institutional Performance](#), ACCJC applies a set of annual monitoring and evaluation approaches to assess member institutions' strengths, stability, and ongoing alignment with the Standards during the course of the accreditation review cycle. The Annual Report (AR) is one of the tools used for this process. Using institutions' self-reported data, the ACCJC Annual Report collects headcount information to monitor institutional growth (including growth in distance and correspondence education) and institution-set standards for key indicators of student achievement, licensure exam pass rates, and job placement rates.

To assist you as your institution prepares its responses, you can find additional information, data definitions, and a printable version of the 2025 survey questions at <https://accjc.org/wp-content/uploads/Annual-Report-Instructions-and-Questions-1.pdf>.

Technical Notes for the 2025 Annual Report Survey

The 2025 Annual Report collects data for the three-year period that includes 2021-2022, 2022-2023, and 2023-2024.

Additional information and data definitions are provided in the instruction text where relevant.

All questions with an * are required.

If a question is not applicable, please enter n/a.

If you are copying and pasting figures from a Word or PDF document, please ensure your numbers don't have extra (trailing) spaces in the end.

Answers are saved automatically, and can be accessed and revised as many times as needed prior to submission.

Use the "Section Navigator" buttons on the next page to jump between sections.

Submitting the 2025 Annual Report Survey

To submit a final copy, follow the instructions in the Final Step page of the online survey. When the survey has been submitted, the College ALO and the individual completing the survey (if different) will receive email confirmation of submission and a copy of the survey responses. ACCJC will forward a final PDF copy of the Annual Report to the ALO and CEO for final review (and adjustment, if needed). If no corrections or adjustments are needed, the PDF copy will stand as the final, certified copy of the Annual Report.

This is the Section Navigator which will allow you to jump to any sections of the survey. You can complete the sections in any order and if you need to return to the main page, please use the back button.

To begin or return to a section, please click the **Answer** button.

The **Next** button at the bottom of this page will bring you to the final page of the survey. You will not be able to proceed until all sections of the survey have been completed.

If you can't complete a section in one sitting, click **Back** to navigate back to the section navigator to complete a different section.

Questions marked with an * are required.

5. Total unduplicated headcount enrollment for last three years:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 20.

6b. Please list any individual degree-applicable credit program which has experienced an increase or decrease of 50% or more in the last year. (Enter N/A if this does not apply to your institution.)

Per federal regulations, ACCJC is responsible for monitoring for significant program growth (or decline) that may potentially impact an institution's ability to meet Accreditation Standards. ACCJC does not determine what constitutes a program for colleges. For the purposes of this report, you may define degree-applicable credit programs as appropriate for the context of your institution's unique mission.

7. Do you offer Distance Education?

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

8. Do you offer Correspondence Education?

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve "paperwork" (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 7, above).

9c: List the current Transfer Rate per the US Education Department College Scorecard.

The US Education Department College Scorecard can be accessed at <https://collegescorecard.ed.gov/>. After entering your institution's name in the search box to find the current graduation rate, click on View School and scroll to the Graduation & Retention drop-down. After you expand the section, you will see the % of students that transferred out. For the purposes of the College Scorecard, graduation rate is defined as "the share of students who transferred to another institution within 8 years of entering this school for the first time."

Reflecting on your score above, describe how your college is supporting continual improvement and innovation in alignment with the ACCJC Standards and guidelines for data transparency on your institution's public website? (100 words)

Laney College recently launched a redesigned website to enhance accessibility and user experience. We are actively migrating and updating content. While a wide range of data is publicly available, we recognize it is not always easy to locate. In alignment with ACCJC Standards and data transparency guidelines, we are improving navigation menus and reorganizing key subsites to ensure clearer access to reports, dashboards, and required disclosures.

We realize that much of the data we need is at the District website and are working to link accordingly.

12. Course Completion Rates

For the purposes of this report, the successful course completion rate is calculated as the number of student completions with a grade of C or better divided by the number of students enrolled in the course. If your institution calculates successful course completion differently, you may respond using your local calculation and describe your methodology in Question 18.

No

16. Does your college offer a Direct Assessment Program? (*Direct Assessment is a form of Competency Based Education as discussed in ACCJC's [Policy on Competency Based Education](#). ACCJC has included this section in the Annual Report Survey in anticipation of colleges seeking to implement Competency Based Education programs using the Direct Assessment approach and will be required to report this data upon the delivery of their programs to students.*)

18. Does your college offer programs that require students pass a licensure or similar exam in order to work in the field?

Yes

Report only those programs for which a license or other similar examination is required before students can qualify for employment in their chosen field of study, and where there were at least 10 students who completed the program in the designated year.

Our institution has programs that meet these conditions.

19. Does your college offer Career and Technical Education Programs?

Yes

For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2022-2023 job placement rate will be the number of students who completed the program in 2021-2022.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2021-2022, you do not need to report a job placement rate for 2022-2023. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.

Our institution has programs that meet these conditions.

20. Please use this text box to provide any comments or context regarding the data submitted in this report (optional, no word limit).

7a. Distance education headcounts have been revised from the previous annual report to more accurately reflect the data following database and query updates.

17a–c. We previously used the Student Success Metrics (SSM) transfer data element to report transfer numbers. With the California Chancellor's Office transition from SSM to Datavista and updated MIS calculation procedures, our prior goals of 1,140 (standard) and 1,320 (stretch) no longer align with the current Datavista metric. We are now reporting transfer numbers using UC and CSU data, along with CCCC Datamart data for out-of-state and private transfers. The college will work collaboratively to establish new goals aligned with this reporting. This method is consistent with how the Peralta District is defining transfer as well.

18–19. The college worked collaboratively with our Career Technical Education advisory committee and disciplines to update our set standards and stretch goals for licensure examination and job placement rates. We previously used data from the Cal-PASS Plus "Employed in Four Quarters" metric. That metric is no longer available. We are now using CCCC Perkins Core Indicator 4, which is functionally aligned with the previous metric. We will continue to evaluate our standards and goals as more data becomes available.

Data for 2023–24 is not yet available due to the inherent lag in employment data collection and wage matching required for CCCC Perkins Core Indicator 4 reporting.

Programs noted with "n/a" in the job placement rate had no data or fewer than 10 completers. These programs remain listed to preserve their standard and stretch goals for future reporting when data may become available.

In this Annual Report, ACCJC seeks to gain additional insights from our member institutions. Regarding student achievement data, these questions seek to learn more about how colleges are advancing student achievement, challenges faced, and support needed.

21. Reflecting on your Institution's student achievement(s), what efforts/initiatives/competencies have you found to be fundamental in supporting the recent successes you've observed/reported? Please describe any innovations and improvements along with a brief narrative of how it was achieved. (max 200 words)

Successes in this last year were in enrollment headcount, certificate and degree completion. We were able to offer 2 years of free tuition and books in 2022-2024, which is now paying off in completions.

22. What professional development can the Commission coordinate to support your Institution in achieving its student success goals within the next three-year cycle? (max 200 words)

Ongoing training in institutional outcome transparency, including best practices. Training in the new distance education rubric.
