

## AcademicLiveCare

---

virtual visits 24/7 from a smart phone, computer or other mobile device

a convenient way to get care.

Students can see board-certified physical, behavioral, and nutritional health professionals from the comfort of their own home. Safe and secure, it's the on-demand quality care they need, when they need it.

### Why Choose AcademicLiveCare for Your Students?

- Broad range of services including urgent care, therapy, psychiatry, nutrition, and women's health
- 24/7 urgent care services accessible from anywhere in the US, at anytime.
- Support for your students when they are away from campus or after hours when the health center is closed.
- Visits do not affect the claims utilization of your Student Health Insurance Plan.
- Comprehensive reporting package to help you track and monitor the health of your student population.
- Ability to offer only to students on the Student Health Insurance Plan or all students at your institution with flexible options including a \$0 copay for students.
- Support from our dedicated marketing team to develop and execute campaigns aimed at increasing student awareness.
