BACKGROUND/ANALYSIS:

Consider approval of an annual renewal support contract with Oracle to provide the IT team with technical support and software updates for security, improved performance, and features for PeopleSoft 9.2. Since 2004, the Peralta Community College District has had a contract with Oracle PeopleSoft. On October 9, 2018, the District entered into a five-year support services agreement to comply with Federal/State regulatory updates and software patches for the PeopleSoft product line. The support contract provides staff with vendor technical expertise to maintain and secure the 9.2 PeopleSoft Enterprise Resource Program. The support contract is critical to the continued operation of Peralta Community College District's financial, human resources, and student information systems. Under the terms of the support services agreement that the District executed in 2018, the District agrees to renew the specific desired support services. The application support in the amount of $ 338,423.73 is budgeted to the general funds, and therefore, it is not an added cost to IT operation per the five-year contractual agreement with Oracle.
