Laney Student & Faculty Member Represent ROC Program at State Board Meeting

Laney College was proudly represented at the California Community Colleges Board of Governors meeting on March 25, where student Judah Garrison and faculty member Roger Chung, co-coordinator of the Restoring Our Communities (ROC) program, presented on the impact of ROC's work with system-impacted students.

Judah shared a deeply personal testimony about his journey back to education and the role ROC has played in his success. Roger Chung followed by emphasizing the importance of programs like ROC in creating pathways to healing, academic achievement, and personal growth.

This opportunity highlighted both the strength of our students and Laney's leadership in reentry support. We're proud to see ROC's mission and outcomes recognized at the state level and look forward to continuing this important work districtwide.
