We're focused on helping you save money and keeping your teeth and gums healthier.

Giving you simplicity and lower costs.

This is a simpler, lower-cost plan that covers a range of dental services. You can see any dentist in our network you want. If you choose to see a dentist that is not in our network, you won't receive coverage so it's important to stay in the network. You may see this plan referenced as a Direct Compensation plan.

See any network dentist and save.

You'll need a referral from your dentist to see a network specialist.

Preventive care is covered 100% in our network.

Get coverage on hundreds of services.

No deductibles and annual maximums.

Helping you stay healthier.

Your plan may include the following wellness benefits. Please review your dental plan documents to view all the coverage details.

Oral cancer screenings.

Adults (age 18 and older) may get oral cancer screenings as part of your preventive care benefit.

There are over 49,000 new cases of oral cancer detected¹ and a little over 60% survive more than five years.²

Extra care during pregnancy.

You may get extra dental visits during pregnancy and the first three months after birth.³

Pregnant women are at higher risk of dental disease.⁴

During pregnancy, a woman is more likely to have gum disease. And gum disease is associated with pregnancy complications. Once a woman gives birth, she can pass oral bacteria on to her baby through kisses and sharing spoons. That's why it's so important to treat and detect oral diseases during pregnancy. And it's good to know that seeing a dentist when you're pregnant is safe.

How your teeth affect your health.

Gum disease is a painless disease that causes bacteria and toxins to enter your blood, which may also be connected to:⁵

- ✓ **Diabetes**
- ✓ **Heart disease**
- ✓ **Pregnancy complications**
- ✓ **Respiratory conditions**
- ✓ **Rheumatoid arthritis**
